Representatives On Important Committees

Senator Charles C. Warren, who has begun his third term in the Senate, has again been made chairman of Metropolitan Affairs, a most important committee. Besides this, he has been appointed a member of the Judiciary committee and the Public Health committee. His work as cut out for him, will make his duties somewhat arduous, but with his wide experience, especially on Metropolitan affairs, will greatly assist him in discharging his duties.

Representative Elliott R. Barker has been given a place on the committee of Street Railways, which is of vital interest to Arlington and it is safe to say that Mr. Barker will endeavor to secure, if possible, better service for the town in the matter of transportation on the cars run by the Boston Elevated Street Railway. This, however, cannot be attempted until the future of the Boston Elevated has been determined.

Our other Representative, George E. Briggs, of Lexington, has been appointed on the Ways and Means committee.

NEW STOP FOR CARS

The car stop at the head of Medford street for Boston-bound cars has been changed from the old post and is now located at the post near the Hamilton Lunch, 432 Mass. avenue. Probably this change was made in order to help the jam that is caused by the large stream of traffic that comes down the avenue and then at this point (the old stop) goes in three directions.

Fifty Years Ago This Week

The residence of Mr. Frank O. Squire, on Arlington avenue, was the scene of a very brilliant party last Monday evening. A company of about sixty couples from Boston, Brighton, Arlington and other places met there by appointment, and spent a few hours most joyously. Brown's Band of Boston, furnished music, "Copeland" was the caterer, which is a warrant for everything being perfect in these departments, and the host and hostess were untiring in their efforts for the comfort and enjoyment about one o'clock.

The Wm. Penn Hose Company had another private dancing party at the Hose House, last Tuesday evening. It passed off pleasantly.

When the gathering broke up all vited that they had spent a very pleasant evening, renewing the associations of High School days.

The ice on Spy Pond was geat the latter part of last week and the first of this. The smooth surface was covered with enthusiastic staters, both day and night. Several parties made up of school friends had gay times and saw, with regret, their fun spoiled by the snowfall wich came Tuesday afternoon and ontinued through the night.

TARRIFF ISSUE MAY BE UPPERMOST

While prohibition and agricultural relief cannot be kept out of the class of major issues, the tariff bids fair to become a super-feature in the 1928 campaign.

Leaders in both parties threaten to carry the tariff fight into the ranks of the enemy, and supporters of a protective tariff seem to wel-48,076.66 come making it a leading issue.

United States senators who visited Europe during the past summer, returned declaring for lower tariffs to give European nations a chance to increase importations and pay off 320.39 their war debts to Our Country.

Protectionists deny that lower schedules, especially for wool and sugar, would secure that result, as Cuba and Agrentina, the principal exporters of sugar and wool, owe this country practically nothing.

So-called tinkering with the tariff might be extremely dangerous, as 65 per cent of imports now come in duty-free, nearly one-half the im-84,595.14 port duties being to protect the farmer, such duties substantially in-19,700.00 creasing the prices received for farm products.

One of our greatest "international bankers" is authority for the statement that present tariff law, instead of stifling imports, has brought 322.64 about an increase of 71 per cent since it went into effect.

America has always expected great things from its greatest industry. But the announcement of the Most Beautiful Chevrolet has been the automotive sensation of all time!

New and Marvelously Beautiful Fisher Bodies

-a host of Mechanical Improvements-New

Features found only on the costliest cars

Here is a car which in beauty, luxury, quality and modern design challenges the costliest creations of the day.

Here, in a price class where average standards have been the rule, is now offered a car so far beyond all expectation that comparisons cease to exist.

Seven superb models styled as low priced cars were never styled before and offering such marks of fine car distinction as: full crown one-piece fenders, bullet type lamps and "fish tail" rear deck modelling! New and supremely beautiful bodies by Fisher! And, above all, infinitely finer quality—the result of a host of additional improvements such as AC oil filter, AC air cleaner, coincidental steering and ignition lock, larger 17" steering wheel, gasoline gauge and many, many others!

All this is combined to a supreme degree in the long famous leader of the Chevrolet line—the Coach. It would be a brilliant achievement for any manufacturer merely to design such a splendid car to sell at any reasonably low price. But to sell it at the amazing price of \$595 is a feat of history making proportions. This one price reduction alone would suffice to center worldwide attention on Chevrolet. But due to economies of tremendous production plus the vast resources of General Motors, Chevrolet also announces striking price reductions on other models.

For years Chevrolet has led the world in providing Quality at Low Cost. But now with a new and more beautiful car—with a car infinitely finer in quality and greatly lower in price, Chevrolet stands supreme and unchallenged in dollar-for-dollar value!

No matter in what price class you intend to buy or whether you plan to spend more or less than the price of a Chevrolet.come in today and see the most beautiful low priced Coach ever designed. Admire its marvelous style and grace! Mark its many new finecar features! Learn for yourself by personal inspection why, at its new low price, it is the greatest sensation of America's greatest industry

What Is The Answer?

In the Boston Globe of last week, under the "People's Lawyer" column, there was a pertinent article of considerable length headed. "To Parents and Young People." The writer had evidently been asked how to secure harmonious conditions in the home, the complaint being especially on the lack of respect shown parents by children, and of the selfish traits of character shown by their treatment

The answer to the complainant by the writer led one to draw the conclusion that to his mind the parents who do not have the respect of their children are to blame, nine times out of ten.

That there is a laxity of parental discipline today, greater than ever it not be worked out to the advanage of both parents and children, if properly directed? If the children are given to feel that parents are interested in what is interesting them, is there not likely to be created a bond of love and companionship that will go a long way toward comship that brings content and under-ington car that comes along standing in the home?

We are fiving in a progressive as well as extravagant age. It has produced a different type of young peobefore; most people have it. However, many parents were deprived of the things they desired in youth; ren, they do so. Whether this indulgence is wise is a question many are this be the proper solution? What asking today. However, it is too is the objection to it? early to give the answer as to what the result will be by the present over indulgence of our children; but this can be said: There are many who are looking on the scene being enacted between parents and children with optimism, feeling confident that the young people of today are fully as competent of steering their craft into the broad and open sea of advenrocks and shoals, as were the boy or girl of twenty-five or fifty years ago.

The only difference today is that the method of sailing this valuable craft of human mechanism has cause, and to express particular apchanged, and unless parents are will- preciation of his contribution to the ing to take the time from their busy life, whether it be business or pleasure, to stand by and guide the sailor into channels of saner desires, disaster may follow from our present land M. Good Will

The Christmas wreaths have gone into the ash barrel. The tinsel and ornaments have been stripped from the Christmas trees and put away tory Theatre. This play, adapted by until another year, while the trees Charles Frederic Niedlinger from the themselves have been set out for the Spanish dramatist Echegaray's "El rubbish man to take, or, mayhap, have been sent to the cellar to be drama, and its present production at cut into firewood.

that was so prevalent a few weeks ago? Has that, also, been discarded, or put away until another holiday all countries who like plays of proseason, as too Utopian for this practical, workaday world where we must each struggle towards the free air of economic independence, nor dare to look below us lest we lose our footing and be hurled back into the mass beneath?

One is sometimes tempted to believe that such is the case. Yet in these days there seems to be nothing than good will. We do not mean chestra on Tuesday, the 18th.

which causes great spirits to give ARLINGTON RECOVERED WITH Arlington Advocate their lives for others, but just the plain kindly disposition towards humanity and to all things created which makes some people always rather do good than harm to any living creature. It is the sort of thing that makes a man go two blocks out of his way to show a stranger the street he is looking for, and that once made Abraham Lincoln pause in a walk with a grave cabinet officer while he turned over a big black beetle which was kicking helplessly on its back.

> We often hear people speak very slightingly of men who have this attitude towards the world markedly developed. "Oh, he's a well-disposed enough sort of chap, but he doesn't seem to get anywhere," they say with a shrug of the shoulders, and dismiss the man from their conversation and their thoughts.

> But that kindly disposition that, though often forced far below the surface and out of sight, is latent in many of us, makes the world even as fit a place to live in as it is. If it weren't for this more or less vague consideration for the world and all that is in it, on the part of millions of men and women, business and life itself would be well-nigh impossible.

Yet it does not make for what we usually call success for the individual. But it certainly does make for To the heirs-at-law and all persons the success of the race as a whole.

Reading history is a dismal thing sometimes. Take the range of six or seven thousand years of which we have anything like definite information, and we are appalled at the lack ment of decent, happy life for the of paying the debts and charges of adminislarge proportion of the people, that the whole tale shows.

Tuesday morning, snow began to fall and for a time came down so gently that it did not look as if it would interfere much with traffic, but before many hours the wind took on the velocity of a blizzard and confinued throughout the day, piling up the snow into high drifts. Before the storm ceased, 9.2 inches had fallen, but fortunately it was free from sleet so could be easily handled.

The storm did not cease until about ten o'clock in the evening, and the streets were deserted, only those who were obliged to venture out being in evidence.

Our new up-to-date snow removers were put to work under the direction of our street department, early in the afternoon, and did not leave the job until all streets, highways and sidewalks had been cleared

If one was awakened early on Wednesday morning by the snow plows it was not disturbing, for it would be ready and they were, department in charge.

Chats With Your Gas Man

WAYS TO HOLD A WIFE! Peter, Peter, Pumpkin Eater Had a wife and couldn't keep

Good gas service in his home, Might have ceased his wife to roam

There's more truth than poetry to this little verse. Investigation has proved that women supplied with efficient household equipment make better, more contented wives and mothers than those who are forced to do with makeshift out-of-date tools.

It is logical that the well equipped home is a happier place in which to live. It is logical that a new gas range inspires a woman to do more cooking. It is only fair that homes be made convenient in the matter of water heating, for instance, because the wife and mother who stays home all day has greater need of a gas water heater in her duties.

Women do not often complain about or rebel against household equipment. They're used to getting along somehow until the money can be found. But if every home had what is needed just in the matter of gas" appliances, alone, many tasks would be lightened and more smiles abound in the family circle

SLATER ESTATE BOUGHT TO CARE FOR MARYCLIFF

Increasing Number of Applicants Has Made This Necessary.

The extensive Pine Bank estate in Milton, formerly the home of Mrs. Horatio N. Slater, has been purchased by the Religious of Christian Education for use as a girl's school to be known as Mary's Manor. This religious community has for 13 years conducted Marycliff Academy on Robbins road in Arington, one of the outstanding institutions of its kind in the Boston archdiocese.

Acquisition of the new property will make it possible to take care of the ever-increasing number of applicants for admission to Marycliff, and will also enable establishment of separate quarters for the novitiate which the community has recently opened at Marycliff. Only students who have completed the grammar school will be admitted to Mary's

The instruction will include college preparation as well as studies for those desirous merely of completing secondary school work. A special course in French will also be given for high school graduates.

The property includes an Elizabethan manor house of about 40 rooms, an 8-room lodge, a cottage and a stable-garage, as well as about 53 acres of land fronting on Blue Hill avenue, Atherton street and Brush Hill road.

ANNUAL MASS MEETING OF FLORENCE CRITTENTON LEAGUE

The annual mass meeting of the Circles of the Florence Crittenton League will be held on the afternoon of Friday, January 28, 1927, at the Hotel Somerset, Boston.

Mrs. Robert F. Herrick will preside, and there will be two speakers, Miss Jessie F. Binford and Mrs. Reba Barrett Smith. Miss Binford has been for many years the Director of the Juvenile Protective Assn. of Chicago. She is a speaker of rare charm and always has a forceful message. She has lived at Hull House for a number of years and is a close friend of and co-worker with one who is ack-howledged by most people to be the finest type of social worker this country had produced Miss Jane Addams. The other speaker, Mrs. Reba Barrett Smith, is General Superintendent of the National Florence Crittenton Mission. Mrs. Smith was in close touch with her mother, the late Dr. Kate Waller Barrett, for many years President of the National Florence Crittenton Mission. She is a very forceful speaker and having recently visited many of the sixty Florence Crittenton Homes located in various parts of the United States, will have an interesting message for all who attend. A large gathering at this meeting is assured.

The annual league bazaar held at the Copley Plaza last November was the most successful one ever. The gross receipts were nearly \$15,000. and the net proceeds over \$13,500. The Arlington Circle turned in \$452.-45 of this account.
